X-Large- 23 cm (9.0")

Adidas Bracelets

Small - 17 cm (6.7")
Medium - 19 cm (7.5")
Large- 21 cm (8.4")

- * To ensure the proper size print this page for your wrist circumference
- * Use a fabric tape measure
- * Use a string to measure and a ruler to determine your size wrist.
- * Make sure there is enough room around your wrist so that it is not tight (the bracelets should fit close but not tight).

Instructions:

1. Print this page. When the print dialog box appears; make sure the Page **Scaling is set to NONE.**
2. Compare the **SIZER STRIP** with a ruler to ensure the **STRIP** printed to the correct scale.
3. Then cut out the entire **SIZER STRIP** around the borders.
4. Create a slit through both the X's at the top of the sizer and cut along the dotted lines.
5. Place the sizer around the wrist and pull the end through the slit.
6. Make sure there is enough room around your wrist so that it is not tight (the bracelets should fit close but not tight).
7. Determine your measurement in centimeters as it appears through the slit.
